VERIESTATEREAL

SYNTHETIC DEMONSTRATION DOCUMENT — NOT A REAL PROPERTY RECORD

Sample Property Listing & Supporting Information

This fictional sample is provided only to test document upload, text extraction (OCR/PDF parsing), field comparison, and review-status features in a student prototype. It is not proof of ownership, a sale agreement, a government record, or a legally valid document.

A. Listing details

Field	Fictional sample value
Listing ID	VERI-DEMO-001
Property type	Residential apartment
Locality	Green Park Extension (fictional)
City	Demo City
Advertised area	1,050 sq. ft.
Bedrooms	2
Listing source	Sample owner listing
Listing date	14 October 2026

B. Fictional supporting-information sheet

Field	Fictional sample value
Reference ID	DEMO-REF-2048
Locality	Green Park Extension (fictional)
City	Demo City
Property type	Residential apartment
Area stated	1,050 sq. ft.
Document status	Illustrative sample — not independently verified
Review note	Compare fields against the listing; do not infer legal ownership.

Suggested prototype test

Upload this PDF as a supporting document. Check whether the app can read the listing ID, locality, city, property type, and area. If your app has separate listing fields, enter the same values manually and compare the extracted information with them. Expected outcome: the fields should broadly match; the app must still label the record as a synthetic test and not as officially verified.

Safety note: Do not upload Aadhaar, PAN, real ownership deeds, sale agreements, or other personal/legal documents into this prototype unless you have explicit authorization and appropriate privacy protections.
